<p>As a professional, I encourage everyone including family members of HD Folks to use words such as “My loved one is a threat to him/herself and/or the family” when the authorities are called in. This does not guarantee action but if this is repeated over and over, it can help to move things along FASTER. Please insist using the phrase and in addition, use it in any and all reports. Often a paper trail will help you and your loved one at a later time.</p>	<p>ASU Speech and Hearing Clinics- The on-campus speech and hearing clinics provide high quality professional services to the public and those that have limited insurance coverage.
